- Photo Collage Achema

Thank you for visiting us!

It has been a couple of weeks since Achema, which was a huge success for Yamada. That is why Yamada Europe would like to thank you for supporting us. Your support made it to this great event.

On the next page you will find a photo collage of Achema 2012.

Yamada Thanks you!

Manifolds

There are new NDP-40/50/80 pumps delivered from Japan, with a pump code RC at the end, these will be the new standard.

This means that from July 19th 2012 all pumps will be delivered with a conical pipe thread, RC (BSPT).

40/50/80 pumps that are coded with R at the end, BSP straight thread will run out of stock.

Yamada
