

## TECHNICAL UPDATE

**TECHNICAL  
UPDATE  
March 2022**

**NDP-10BP  
discontinued**

With this we would like to inform you that Yamada Corporation has decided to discontinue the NDP-10BP-series pumps. 3/8" pumps PPG with Rytan motor.

**NDP-10BP**

You can still buy the NDP-10BP. until the stock runs out. For the future we recommend to choose the NDP-15FP / BP. series or the G15P.00 series. Both series have a chemical compatible motor and this makes them well suited for use in the chemical industry to pump diluted acids and bases.

Available until the stock runs out.
